AFFIDAVIT OF GARTH FAI

Sworn on October 24, 2017

I, GARTH FAI, of Vulcan County, in the Province of Alberta, MAKE OATH AND SAY THAT:

1. I am the Director of Corporate Services for Vulcan County (the "County") and I have personal knowledge of the facts sworn to in this Affidavit except where stated to be based on information and belief, in which case I believe that information to be true.

2. The County is a municipal corporation established under the *Municipal Government Act*, RSA 2000, c. M-26 (the “*MGA*”).
3. Pursuant to the provisions of the *MGA*, the County levies property taxes upon assessed property located within the County’s municipal boundaries through a property tax bylaw required by section 353 of the *MGA*, which is passed by the County’s Council annually. Attached hereto and marked as **Exhibits “A”, “B” and “C”** are copies of the County’s 2015, 2016 and 2017 property tax bylaws, Bylaw Nos. 2015-011, 2016-009, and 2017-015.
4. Properties within the County that are subject to assessment and taxation are assigned individual tax roll numbers based on the legal land description of the location of the property. Lexin Resources Ltd. (“Lexin”), or its predecessor was at all material times the assessed person in respect to assessed property within the County contained on a total of 112 separate tax rolls. Attached hereto and marked as **Exhibit “D”** is a copy of the 2017 Combined Assessment and Tax Notice Owner Summary, which provides a summary of the 112 2017 Combined Assessment and Tax Notices that were issued to Lexin on May 31, 2017.
5. The property included within the tax rolls for which Lexin is the assessed person are all comprised of assessments for “Industrial – Land”, “Industrial – Well Sites”, “Industrial – Extractive” or machinery and equipment (referred to as “M & E”). Lexin was determined to be the assessed person in respect to this assessable property by the County’s assessor in accordance with section 304 of the *MGA*.
6. Lexin has failed to pay property taxes levied by the County since 2015. As of the date of this Affidavit, the outstanding taxes owed by Lexin to the County, including outstanding 2015, 2016 and 2017 tax levies, and all penalties imposed to date, total \$2,843,457.89. Attached hereto and marked as **Exhibit “E”** is a Tax Roll Trial Balance showing the total outstanding property tax balance owed by Lexin to the County as of October 17, 2017.

7. I am advised by Gregory Plester of Brownlee LLP, and believe that on or about March 22, 2017, the Alberta Energy Regulator obtained an order in these court proceedings, Court of Queen's Bench action 1701-03450 (the "Receivership Proceedings"), appointing Grant Thornton Limited (the "Receiver") as receiver in respect to all of the assets of Lexin.
8. I further understand that on or about June 14, 2017, a consent receivership order was granted in the Receivership Proceedings that, among other things, expanded the Receivership Proceeding to include the assets of 0989 Resource Partnership ("0989").
9. I have reviewed the Receiver's Fifth Report, filed October 12, 2017, and based on my review of that report I understand that the Receiver has been contacted by third parties that are not subject to the Receivership Proceedings that have claimed to be the owners of certain assets that are involved in Lexin's oil and gas production operations and that the Receiver had intended to sell pursuant to the court-approved sales process in these Receivership Proceedings. Specifically, based on my review of the Receiver's Fifth Report, I understand that:
 - (a) 1049597 BC Ltd. ("597") has claimed to be the owner of equipment that is located at various oil and gas sites operated by Lexin, as detailed in paragraphs 47 to 59 of the Receiver's Fifth Report; and
 - (b) Energy Leasing Partners Ltd. ("ELP") has claimed that it is the owner of equipment that is located at sites for which Lexin is the registered operator, as detailed in paragraphs 97 to 105 of the Receiver's Fifth Report.
10. I have reviewed the lists of equipment that 597 and ELP have respectively claimed to be the owners of and have determined that these lists include assets that are located within the County, are subject to assessment by the County's assessor in accordance with the provisions of the *MGA*, and for which Lexin was previously determined by the County's assessor to be the applicable assessed person.

11. By comparing the list of assets that 597 has asserted ownership of with the County's assessment and taxation records, I have determined that the assets claimed by 597 include approximately 75 items that are located at sites within the County for which Lexin is, and was at all material times, the assessed person. Attached hereto and marked as **Exhibit "F"** to this my affidavit is a spreadsheet of the assets I understand that 597 has claimed to own with the assets that are located at Lexin-operated sites within the County indicated.
12. Similarly, by comparing the list of assets that ELP has claimed to be the owner of with the County's assessment and taxation records, I have determined that ELP has claimed to be the owner of approximately 43 items located at Lexin-operated sites assessed by the County. Attached hereto and marked as **Exhibit "G"** to this my affidavit is a copy of a list of items that ELP claims to own with the assets located at Lexin-operated sites within the County indicated.
13. Some or all of the assets claimed by 597 and ELP that are located within the County constitute assessable property that have been included in the combined assessment and tax notices issued to Lexin as either assessable buildings and structures or machinery and equipment. For example:
 - (a) 597 has claimed to be the owner of a refrigeration plant located at the Lexin-operated site associated with the County's tax roll no. 320 265 044. The assessment prepared by the County's assessor for tax roll 320 265 044 includes an assessment for a refrigeration building assessed at \$51,440. Attached hereto and marked as **Exhibit "H"** to this my affidavit is a copy of the Industrial Details assessment report prepared by the County's assessor in respect to tax roll no. 320 265 044 showing the assessment of assessable property located at that site.
 - (b) 597 has also claimed to be the owner of several pieces of "miscellaneous equipment" located at the Lexin-operated site assessed under the County's tax roll no. 320 273 113. The property claimed by 597 includes: an MCC skid; two compressor skids; and

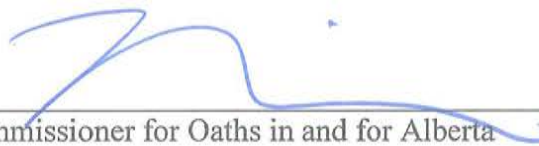

a flare stack. The assessment prepared by the County's assessor for tax roll 320 273 113 includes an assessment for: an MCC building (assessed at \$48,140); two compressors categorized as buildings or structures (assessed at \$111,560 each); and a flare stack. Attached hereto and marked as **Exhibit "I"** to this my affidavit is a copy of the Industrial Details assessment report prepared by the County's assessor in respect to tax roll no. 320 273 113 showing the assessment of assessable property located at that site.

(c) ELP has claimed to be the owner of approximate 20 items located at the site operated by Lexin and assessed under the County's tax roll no. 320 299 530, including a separator package and a compressor. The assessment information prepared by the County's assessor shows that the assessment for tax roll no. 320 299 530 includes assessments for, among other things, a separator building and a compressor building. Attached hereto and marked as **Exhibit "J"** to this my affidavit is a copy of the Industrial Details assessment report in respect to tax roll no. 320 299 530 showing the assessment of assessable property located at that site. .

14. The County supports the Receiver in its efforts to expeditiously sell the assets of Lexin, including those assets claimed by of 597 and ELP. The County has significant concerns that further delays in the sales process will undermine the Receiver's ability to realize maximal proceeds from the sale of Lexin's assets. The County is further concerned that apparent attempts by 597 and ELP to exclude certain assets from the sales process conducted by the Receiver will compromise the County's ability to enforce its special lien against those assets that arises pursuant to section 348 of the *MGA* in respect to the outstanding taxes owed to the County by Lexin.

15. I make this affidavit in support of the Receiver's application for advice and direction of the Court in respect to, among other things, the Receiver's court-approved sales process.
