AFFIDAVIT OF TATSIANA OKUN
sworn on May 2, 2017

I, TATSIANA OKUN, of the City of Toronto in the province of Ontario, MAKE OATH and SAY
AS FOLLOWS:

1. I am a lawyer with Groia & Company Professional Corporation (“Groia & Company”), counsel for Lexin Resources Ltd. (“Lexin”) and as such I have personal knowledge of the facts and matters hereafter deposed to save and except where the same are stated to be made on information and belief and where so stated I verily believe the same to be true.
2. I have reviewed the Application made by the Receiver herein, as well as its First Report dated March 30, 2017 and its Second Report dated April 28, 2017 (the “Second Report”).
3. On May 1, 2017, Groia & Company sent a letter to the Receiver detailing a number of questions related to the Second Report. A copy of that letter is attached as Exhibit “A” to my affidavit.
4. By way of background, the Receiver was appointed by way of a court order dated March 20, 2017 (the “Receivership Order”), a copy of which is attached as Exhibit “B” to my affidavit. The Receivership Order was made by the Honourable Justice P.R. Jeffrey after hearing an application brought by Lexin for a stay of proceedings under the *Company Creditors’ Arrangement Act* (“CCAA”) and an application brought by the Alberta Energy Regulator for an order placing Lexin in receivership pursuant to the *Bankruptcy and Insolvency Act* and the *Judicature Act*.
5. Mr. Justice Jeffrey’s oral reasons for dismissing Lexin’s CCAA application, given March 17, 2017, are attached as Exhibit “C” to my affidavit. Mr. Justice Jeffrey’s oral reasons for appointing Grant Thornton as the Receiver of Lexin, given March 20, 2017, are attached as Exhibit “D” to my affidavit. Lexin brought application for leave to appeal both decisions, which are scheduled to be heard by the Court of Appeal on May 16, 2017.

Document Review Protocols

6. With other lawyers at Groia & Company, I was involved in the negotiation of (a) the Protocol for the Review of Records by the Court-Appointed Receiver of Lexin Resources Ltd. and the Urgent Disclosure of Lexin Resources Ltd. to the Orphan Well Association (the “OWA”) (the “Disclosure Protocol”) and (b) the Protocol for the Disclosure of Records Seized by the Alberta Energy Regulator (the “AER Document Disclosure Protocol”), both of which were agreed to by Lexin and are attached to the Document Protocol Order granted by the Court on April 4, 2017 (the “DPO”). I attach the DPO, with its attachments to my affidavit as Exhibit “E”.
7. My colleague, Bonnie Roberts Jones, had lengthy discussions with respect to the Disclosure Protocol and the AER Document Protocol with counsel for the Receiver, Robyn Gurofsky over the course of the weekend and on the morning of April 4, 2017 prior to the DPO being granted by the Court. Ms. Roberts Jones informs me and I believe that there were no discussions at that time between Groia & Company and Ms. Gurofsky regarding the volume of paper documents that were to be subject to either Protocol.
8. As the Protocols were negotiated, it was fundamentally important to Lexin that its rights in relation to solicitor-client and litigation privilege over certain documents were preserved. This position and the nature of Lexin’s rights to assert privilege over privileged documents seemed to be understood and accepted by counsel for the Receiver without any reservation. Ms. Roberts Jones advised Ms. Gurofsky that she could not consent to a Protocol that did not protect Lexin from inadvertently missing a privileged document during the review process and a paragraph was added to each Protocol to deal with this issue.

9. Further, Groia & Company always understood that these Protocols were to apply to Lexin's records as defined in the Protocols, not those of third parties.
10. Upon reviewing some of the Receiver's correspondence attached below, as well as the Application materials filed by the Receiver, my colleagues and I, have been surprised to see that the Receiver seems to have discounted the importance of Lexin's right to protect its privileged communications. It also appears to me that the Receiver is surprised to realize that Lexin intends to exercise the rights to which it is entitled both at law and which they bargained in agreeing to the Protocols.
11. Among other things, the Disclosure Protocol provides that the Receiver must provide Groia & Company with a general index of Lexin's paper records on a continuous basis as they are collected and catalogued. It further provides that such general indexes may be limited to, depending upon the circumstances, a label on the box of documents "if that is sufficient for identifying its contents". The first thing that we noticed when we started to receive and review general indexes from the Receiver, as described in more detail below, is that the indexes provided by the Receiver contained very general descriptions of the boxes or files being catalogued, often too general for us to identify their contents in order to determine whether they needed to be reviewed for privilege.
12. The Disclosure Protocol also provides for a mechanism under which if a document is immediately identifiable on its face as a Lexin Emergency Record (as defined in Section 24 of that Protocol), the Receiver may release it immediately to the OWA with a concurrent notification to Groia & Company that it has been released. We had similar difficulty, as discussed in detail below, in reviewing and understanding the basis upon which the documents

listed in Emergency Records indexes were categorized as such. Based on the limited and very general description contained in the Indexes, it has not be always evidence on their face as to why the documents were categorized as Emergency Records.

13. In addition, the Reviewable Paper Records indexes and Emergency Records indexes Groia & Company received from the Receiver, as described below, contained files that, based on the descriptions provided, were clearly not Lexin's records.

AER Document Disclosure Protocol

14. On or about April 7, 2017, Groia & Company received a request from Ms. Gurofsky under the AER Document Disclosure Protocol that Groia & Company attend at the Receiver's office to review the Paper Records for privilege. I have attached a copy of this correspondence as Exhibit "F" to my affidavit.
15. I immediately contacted the Receiver on the same day and confirmed over the weekend my availability to conduct the review the following week. I have attached a copy of my email exchange with counsel for the Receiver as Exhibit "G" to my affidavit.
16. On April 12, 2017, I attended at the offices of the Receiver, Grant Thornton to review the Paper Records for privilege, in accordance with the terms of the AER Document Disclosure Protocol. There were two investigators from the AER Major Investigations Team and a representative of the Receiver present throughout the day during my review of the documents. I located certain privileged documents in the Paper Records and segregated them, but was unable to take those documents away to summarize their contents and the basis upon which we were asserting privilege. As such, I did my best to take notes and took photographs of some of the documents

so that we could provide the Receiver with a list of the documents that I had determined were privileged, in accordance with the AER Document Disclosure Protocol. Those documents were segregated and, in accordance with the Protocol, neither the AER or the Receiver is to review them unless it is determined that they are not privileged.

17. On April 13 and 14, 2017, Ms. Roberts Jones and Ms. Gurofsky exchanged correspondence regarding the circumstances under which I was allowed to review the Paper Records on April 12, 2017. That exchange of correspondence is attached as Exhibit "H" to my affidavit. I confirm that the content of Ms. Roberts Jones' correspondence of April 13, 2017 is accurate.
18. On April 17, 2017, in accordance with paragraph 4 of the AER Document Disclosure Protocol, I provided to Ms. Gurofsky a list of the privileged records that I had identified on April 12, 2017, along with a general description of the records and the nature of the privileged claimed, as required under the AER Document Disclosure Protocol. My April 17 correspondence and the attached list is attached as Exhibit "I" to my affidavit.
19. On April 25, 2017, I received correspondence from Ms. Gurofsky asking for further details about the documents listed in the attachment to my April 17, 2017 letter, including dates and identity of the author or recipients of the correspondence. A copy of this letter is attached as Exhibit "J" to my affidavit. As I was not allowed to take the documents or their copies with me and can only rely on my notes and some photographs of the documents, we have only a limited ability to provide a greater level of detail. In any event, the additional level of detail requested is not required under the Protocol and may, in certain instances, undermine the privilege claimed.

Document Review under the Document Disclosure Protocol

20. On April 13, 2017, Ms. Gurofsky sent to Groia & Company two indexes listing Lexin Emergency Records and Reviewable Paper Records. Copies of Ms. Gurofsky's emails with attachments are attached as Exhibits "K" and "L" to my affidavit. We reviewed these lists and noted that the description of the documents was very general. The lists were not very long (18 and 3 pages respectively). Groia & Company did not raise any issues with these lists.
21. On Saturday, April 22, 2017, Ms. Gurofsky emailed to Groia & Company two lists dated April 18, 2017, one purporting to be an index of "Lexin Emergency Records" and one purporting to be a general index of the Paper Records disclosed under the Document Disclosure Protocol. The first list was 27 pages long and the second was 57 pages long. I attached as Exhibit "M" of my affidavit, Ms. Gurofsky's April 22 Emergency Records Index and as Exhibit "N" of my affidavit Ms. Gurofsky's April 22 Paper Records Index.
22. On the evening of Monday, April 24, 2017, Ms. Gurofsky emailed to Groia & Company three lists, one purporting to be an index of "Lexin Emergency Records" and two purporting to be general indexes of the Paper Records disclosed under the Document Disclosure Protocol. The first list was 107 pages long, the second was 47 pages, and the third was 33 pages long. I attached as Exhibit O" of my affidavit, Ms. Gurofsky's April 24 Emergency Records Index and as Exhibits "P" and "Q" of my affidavit Ms. Gurofsky's two April 24 Paper Records Indexes.
23. Upon review of the April 22 and 24 Emergency Records Indexes (which totalled 134 pages), it was clear to me and the other lawyers at Groia & Company that the Indexes did not comply with the Disclosure Protocol as they did not contain the level of particularity that would allow

us to determine if all of the Records on these indexes were, in fact, Emergency Records as defined in the Document Disclosure Protocol. As such, we wrote to Ms. Gurofsky on April 25, 2017 to advise her that it was our position that the Emergency Records Indexes that she had provided were not compliant with the Protocol and that the Records that they referenced were not to be delivered to the OWA. Our correspondence in this regard is attached as Exhibit "R" to my affidavit.

24. Ms. Gurofsky immediately replied that she would advise Grant Thornton of our position and that, to her knowledge, the documents at issue had not yet been provided to the OWA. Ms. Gurofsky's correspondence is attached as Exhibit "S" to my affidavit. I am not aware of the status of these documents at the time of swearing my affidavit.
25. Upon review of the April 22 and 24 general Indexes of the Reviewable Paper Records (which totalled 137 pages), it was clear to me and to the other lawyers at Groia & Company that these Indexes were insufficiently particular to allow us to determine, based on the Indexes alone, which files and boxes potentially contained privileged documents. As such, we advised Ms. Gurofsky on April 25 and 26, 2017 that the Indexes provided did not comply with the Document Disclosure Protocol and we would need to review all of the files contained on the April 22 and 24 general Indexes of the Reviewable Paper Records. Our correspondence in this regard is attached as Exhibit "T" to my affidavit.
26. Under the Document Disclosure Protocol, Groia & Company is required, within 48 hours of receiving an Index of the Paper Records from the Receiver, to advise as to which files it wishes to review for privilege. Then, within a further 48 hours, it must review those files and segregate out those documents that, in its view, are privileged.

27. On Tuesday, April 25, 2017, Groia & Company advised Ms. Gurofsky that someone from our office would attend the following day, April 26, to commence the review of the documents listed on the April 22 and 24 general Index of Paper Records, as well as those listed on the Emergency Records Indexes. Our correspondence in this regard is attached as Exhibit "T" to my affidavit.
28. Ms. Gurofsky advised us that day that the documents would not be available for review until April 27, 2017, in correspondence attached as Exhibit "U" to my affidavit. Email exchanges between Ms. Gurofsky and Ms. Roberts Jones followed, dealing with the logistics of the document review and are attached as Exhibit "V" to my affidavit.
29. On April 25, 2017, Ms. Gurofsky wrote to Groia & Company to dispute the positions that had been taken by Groia & Company with respect to the Receiver's compliance with the Document Disclosure Protocol. Ms. Gurofsky's correspondence is attached as Exhibit "W" to this affidavit. On April 27, 2017, Groia & Company replied to Ms. Gurofsky's April 25 correspondence, in a letter attached as Exhibit "X" to this affidavit.
30. On April 27 and 28, 2017, my colleagues Joseph Groia and David Sischy attended at Calgary Archives, along with two representatives of Grant Thornton, to commence the review of the files listed on the April 22 and 24 Indexes. As they conducted their review, Mr. Groia and Mr. Sischy were able to determine, for the first time, what the various short forms and categories on the Indexes appeared to reference and what type of documents were contained in various types of catalogued files. As such, they were able to complete their review of the files listed on the April 22 and 24 Indexes without having to open every box and every file, reserving

Lexin's rights to claim privilege over documents that might have been inadvertently missed as part of that process.

31. Mr. Groia and Mr. Sischy also reviewed a sample of Emergency Records boxes for privilege.

This review was conducted without prejudice to the position that the Emergency Records Indexes do not comply with the Protocol as they do not provide sufficient description and often do not fall within the definition of "Emergency Records" as set out in Section 24 of the Protocol.

32. On April 27, 2017, Ms. Gurofsky emailed to Groia & Company two indexes purporting to be indexes of "Lexin Emergency Records" (51 pages in total) and two indexes purporting to be general indexes of the Paper Records disclosed under the Document Disclosure Protocol (49 pages in total). I attached as Exhibit "Y" of my affidavit, Ms. Gurofsky's two April 27 Emergency Records Indexes and as Exhibit "Z" of my affidavit Ms. Gurofsky's two April 27 Paper Records Indexes.

33. That same day, we wrote to Ms. Gurofsky to advise that she could release the Emergency Records detailed in her April 27 Emergency Records Indexes, without prejudice to the position that these Indexes were not in compliance with the Document Disclosure Protocol and Lexin's right to assert privilege over these documents. We also provided Ms. Gurofsky with a list of 36 (out of 274) boxes that we wanted to review for privilege the following day. Our April 27 correspondence in this regard is attached as Exhibit "AA" to my affidavit.

34. During their review on April 27, 2017, Mr. Groia and Mr. Sischy also identified a number of files that, in their view, did not belong to Lexin. They advised Ms. Roberts Jones and me of

this fact, and we wrote to Ms. Gurofsky that date to advise her of that. A copy of our correspondence of April 27 in this regard is attached as Exhibit “BB” to my affidavit.

35. On Friday evening, April 28, 2017, Ms. Gurofsky emailed to Groia & Company an index purporting to be an index of “Lexin Emergency Records” (18 pages in total) and an index purporting to be a general index of Paper Records disclosed under the Document Disclosure Protocol (12 pages in total). I attached as Exhibit “CC” of my affidavit, Ms. Gurofsky’s April 28 Emergency Records Index and as Exhibit “DD” of my affidavit Ms. Gurofsky’s April 28 Paper Records Index.

36. On Sunday, April 30, 2017, we wrote to Ms. Gurofsky to advise her that her April 28 Emergency Records Index was not in compliance with the requirements of the Document Disclosure Protocol and that, without prejudice to that position, we required that the Receiver remove four boxes of documents listed in the April 28 Emergency Records Index and allow Lexin to review them for privilege. Our April 30 correspondence is attached as Exhibit “EE” to my affidavit.

37. On Monday, May 2, 2017, we wrote to Ms. Gurofsky to advise her, in compliance with the Document Disclosure Protocol, that we wished to review 30 boxes listed in the April 28 general Index of the Paper Records. We advised Ms. Gurofsky that we are available to attend to review these files in accordance with the Document Disclosure Protocol. A copy of that letter is attached as Exhibit “FF” to my affidavit.

38. I have been closely involved in managing Groia & Company’s compliance with the AER Document Disclosure Protocol and the Document Disclosure Protocol. When we received the April 22 and 24 general Indexes of the Paper Records, we were very much concerned that we

would not be in a position to review those records properly within the strict time limits set out in the Document Disclosure Protocol. This concern stemmed from the fact that the Indexes referenced hundreds of files and boxes, but we were not able to tell from a review of the Indexes alone which of those files might contain privileged information. For this reason, we were and remain of the view that the general Indexes provided to date by the Receiver are not in compliance with the Document Disclosure Protocol.

39. Having said that, and as discussed above, Mr. Groia and Mr. Sischy have now had an opportunity to review most of the various categories of documents contained in the general Indexes to date and, since that review, we have been able to greatly reduce the number of files that we feel obligated to review for privilege from each general Index that we received.
40. The Receiver is now providing us with general Indexes quite regularly, sometimes daily. While this timing is in accordance with the Document Disclosure Protocol, it is no longer necessary or helpful, in our view, that the general indexes be provided on a continuous basis, assuming that the Receiver continues to implement the same categorization process on future indexes. The result of the disclosure of the general indexes on a continuous basis now means that we must attend every few days to review the potentially privileged documents, so as to comply with the tight timelines for review contained in the Document Disclosure Protocol.
41. As such, we propose that the Document Disclosure Protocol be amended to allow for the Receiver to collect up the remaining Lexin Paper Records and provide one general index of Paper Records once that collection is complete. Groia & Company would then have 48 hours from the receipt of the general Index to review the index to provide the Receiver with a list of those files that it wished to review for privilege, in accordance with the terms of the existing

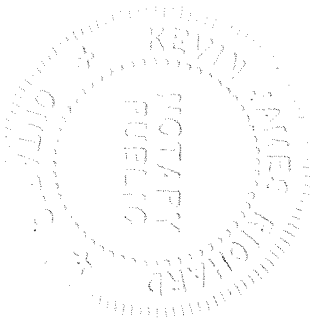

Protocol. Groia & Company would then have an additional 48 hours to commence the review of the requested files on a reasonably continuous basis, with appropriate breaks, until its review is complete.

Request for Power to Examine under Oath

42. I understand that the Receiver seeks an order granting the Receiver all of the powers of examination afforded to a trustee in bankruptcy pursuant to Sections 163 to 167 of the *Bankruptcy and Insolvency Act*.
43. At paragraph 90 of the Receiver's Second Report, it lists 8 specific people that it would like to examine under oath pursuant to these powers, as well as "[a]ny other person that the Receiver reasonably believes has knowledge of the affairs of Lexin".
44. Groia & Company acts for Michael Smith and Rob Jennings in relation to other matters. To my knowledge, the Receiver has only attempted to interview one of the 8 people listed at paragraph 90 of its Second Report, being Mr. Smith. Mr. Smith's correspondence in response to the Receiver's request for an interview is attached as Exhibit "GG" to my Affidavit. I am advised by Mr. Jennings that he is unaware of any attempts by the Receiver to contact or interview him.
45. Groia & Company does not act for any other person found on the list at paragraph 90 of the Second Report.
46. I understand that there is an ongoing major investigation in relation to Lexin being conducted by the AER. I base this conclusion on the following facts: (1) I am aware of the fact that an investigator from the AER's Major Investigations Unit questioned Terry McCrary, in relation

Attention: Robyn Gurofsky

Dear Ms. Gurofsky:

**RE: In the matter of the Receivership of Lexin Resources Ltd. – Emergency Records
Court of Queen’s Bench Action No. 1701-03460**

We write in response to your emails of this Saturday, April 22, 2017 and late last night (at 7:47pm EST) on April 23, 2017 attaching lists of the purported “Lexin Emergency Records” prepared by the Receiver under the Protocol for the Review of Records by the Court-Appointed Receiver of Lexin Resources Ltd. and the Urgent Disclosure of Records of Lexin Resources Ltd. to the Orphan Well Association (the “OWA Protocol”).

First, the indexes of Lexin Emergency Records you have provided do not comply with the OWA Protocol as they fail to provide sufficient description for a meaningful identification of the records as Emergency Records in many instances. In addition, where there is more detailed description, on their face, many of the records are not “Emergency Records” within the meaning of paragraph 24 of the OWA Protocol.

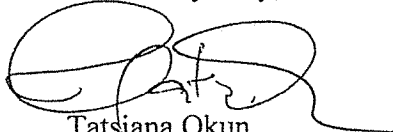

Second, the indexes include records that are clearly not Lexin’s records and/or may include records that do not belong to Lexin. Examples of such records are found on pages 33-35 and 50-53 of the April 23, 2017 index, where you list records that belong to the Mazeppa Gas Processing Plant and Mazeppa “facility files”. As you are aware, these documents belong to LR Processing Partnership and/or LR Processing Ltd., whose property had vested in the trustee in bankruptcy in November 2016.

You are not entitled to release the records you have listed as Lexin Emergency Records on April 22 and 23, 2017 to the OWA. If they have already been released to the OWA, we require you to retract these records immediately.

In order to address these problems, we are prepared to attend to review the records incorrectly or inadequately identified as Emergency Records.

Lexin reserves its rights to claim privilege and review all of the records in question, given the Receiver's breach of the OWA Protocol.

Yours very truly,

Tatsiana Okun

Ms. Okun,

Thank you for your letter of today's date. I immediately sent it to the Receiver and do not believe that these records have been provided to the OWA. I am confirming that today. I will be in touch with you to resolve the issues raised in your letter.

Regards,

Robyn

Attention: Robyn Gurofsky

Dear Ms. Gurofsky:

**Re: In the matter of the Receivership of Lexin Resources Ltd. – Reviewable Records
Court of Queen's Bench, Action No. 1701-03460**

We are in receipt of your general index of documents sent, purportedly, in compliance with the Protocol for the Review of Records by the Court-Appointed Receiver of Lexin Resources Ltd. and the Urgent Disclosure of Records of Lexin Resources Ltd. to the Orphan Well Association (the "Protocol") on Saturday April 22, 2017.

The requirement under paragraph 4 of the Protocol is that you provide "a general index of the Paper Records on a continuous basis as those records are collected and catalogued. Such index may be limited to, depending upon the circumstances, a label on the box of documents if that is sufficient for identifying its contents."

As you are aware from our telephone discussion of this afternoon, unfortunately, the index that you provided does not comply with paragraph 4 of the Protocol.

Firstly, your index does not comply with the Protocol in that it does not identify the documents with sufficient particularity to allow us to determine which boxes need not be reviewed for privilege and which do not, meaning that virtually every box will need to be reviewed.

Secondly, you were to provide indexes on a continuous basis. You did not do so, but created an index of dozens of boxes at once and sent it out at once (followed up the next day with an index dealing with hundreds of boxes, to which we will reply soon), making it impossible for us to review those documents in a 48 hour period.

Without prejudice to our position that you have not complied with the Protocol in these two ways and that we are therefore not required to complete our review within 48 hours, we will be

Groia & Company Professional Corporation ■ Lawyers
Wildeboer Dellece Place

Tel: 416-203-2115 Fax: 416-203-9231
www.groiaco.com

attending in Calgary on Thursday, April 27 to begin the review of those documents listed in your general index sent on Saturday April 22. We will commence our review with the files starting on pages 1 and 46 of the April 22 index identified as "Project Honey" files, "Uganda" files starting on page 38, and "Mineral" files starting on page 52 of the index.

We understand that these records have been moved from the Mazeppa Gas Processing Plant to Calgary Archives. Please confirm that the appropriate arrangements will be made and that there is an appropriate place for the review to be undertaken in a healthy and safe manner.

Yours truly,

Bonnie Roberts Jones

Calgary, Alberta T2P 0R3

Attention: Robyn Gurofsky

Dear Ms. Gurofsky:

**Re: In the matter of the Receivership of Lexin Resources Ltd. – Reviewable Records
Court of Queen's Bench, Action No. 1701-03460**

We are in receipt of your email correspondence of late evening on April 24, 2017 (at 7:52 pm EST) attaching indexes of Lexin Reviewable Records sent, purportedly, in compliance with the Protocol for the Review of Records by the Court-Appointed Receiver of Lexin Resources Ltd. and the Urgent Disclosure of Records of Lexin Resources Ltd. to the Orphan Well Association (the "Protocol").

Similar to the concerns we raised in our letter of yesterday in relation to the general index of the records received from you on Saturday, April 22, 2017, the indexes that you provided on April 24, 2017 do not comply with paragraph 4 of the Protocol.

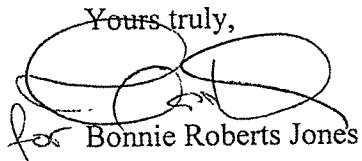

Particularly, your indexes do not comply with the Protocol because:

- (1) They do not identify the documents with sufficient particularity to allow us to determine which boxes need to be reviewed for privilege and which do not, meaning that virtually every box will need to be reviewed; and
- (2) You did not provide indexes on a continuous basis and the indexes provided list hundreds of boxes, which makes it impossible for us to review the documents in a 48 hour period.

As you are aware, we are attending in Calgary tomorrow (Thursday) to conduct a review of the documents listed in the April 22nd index of Reviewable Records. Once we are done with that review, we are prepared to commence a review of the records listed in the April 24th indexes. This is of course without prejudice to our position that you have not complied with the Protocol and that we are therefore not obligated to complete the review in a 48 hour period.

We understand that all of the records are located at Calgary Archives. Kindly advise whether we can work at Calgary Archives after hours and on the weekend, and if not, what arrangements have been made to move the documents so that we can review them on a more reasonable time schedule. Please also advise as to who intends to attend the review and confirm that the review can be conducted in a safe and healthy environment.

Yours truly,

A handwritten signature in black ink, appearing to be "Bonnie Roberts Jones", written over a horizontal line. The signature is fluid and cursive, with the first name "Bonnie" being the most prominent part.

To: Bonnie Roberts Jones (brjones@groiaco.com)
Cc: Tatsiana Okun (tokun@groiaco.com); Cameron, Jessica
Subject: Lexin - Document Protocol - Document Review

Bonnie,

Further to our discussion, I can advise as follows:

1. The list of records provided to you are on a file basis, with multiple files located in a banker's box. As such, there are not as many records listed for review as originally thought.
2. Calgary Archives requires a list of which records you wish to review by 4:00 pm today in order for them to be retrieved under the standard rates.
3. Calgary Archives has indicated it would be better if the review started on Thursday instead of tomorrow in order for them to properly retrieve all of the boxes/files for your review.
4. Calgary Archives has two locations fairly close to each other. One is on 10th Street S.E. and the other is on Portland Street, with the majority of the records being stored at the Portland Street location.

It would be a lot more efficient and cost effective if you could advise us which records you intend to review. If you are prepared to attend on Thursday instead of tomorrow, we would be prepared in this instance (and without extending subsequent review periods) to start the 48 hour clock tomorrow instead of today. Further, if 48 hours is not sufficient to complete the review of the selected records, we would consider reasonable requests for an extension of that time period.

Please advise as soon as possible i) which records your firm wishes to review; ii) whether your firm intends to arrive tomorrow or Thursday to do so; and iii) who will be attending to conduct the review.

Regards,

Robyn

Subject: Lexin - Document Review

Joe/David,

I have confirmation from Calgary Archives that the document review will take place at their Portland Street location - 2316 Portland Street S.E.

Calgary Archives will be ready for you at 9:00 a.m. tomorrow. They require a government issued I.D. in order to permit entrance to the facility. Breanne Scott from Grant Thornton and Jessica Cameron from my office will meet you there at 9:00 a.m.

Calgary Archives is prepared to open the premises over the weekend from 8:00 a.m. to 4:00 p.m. We are currently awaiting their confirmation with respect to any extended weekday hours they may be prepared to offer and will advise when we have that confirmation.

If you have any questions, please let me know.

Thanks,

Robyn

Joe,
We need to coordinate a number of people and advise CA of a time. So I will advise everyone that 9:45 is the start time. Does that work?
As per my earlier email, CA is prepared to open the facility for the purposes of the review from 8:00 a.m. to 4:00 p.m.

Toronto, ON M5H 2V1

Attention: Tatsiana Okun and Bonnie Roberts Jones

Dear Madam:

**Re: In the Matter of the Receivership of Lexin Resources Ltd. (the “Company” or “Lexin”)
Court of Queen’s Bench Action No. 1701-03460
Document Protocol – Emergency Records**

Thank you for your respective letters each dated April 25, 2017 outlining concerns regarding the Emergency Records and Reviewable Records indexes provided to you on April 22, 2017 and on April 24, 2017 (not April 23, 2017 as suggested in your letter). We acknowledge the advice from Ms. Roberts Jones of your office on April 25, 2017 that Groia & Company takes no issue with the indexes of Emergency Records and Reviewable Records provided to you on April 13, 2017.

Lexin Emergency Records

In your letter you indicate that the Receiver’s indexes fail to comply with the Document Protocol in that they do not sufficiently describe the documents. We respectfully disagree. The indexes contain descriptions of both files and boxes and include well files and facility files, in many cases with the specific well/facility or property identified by geographic location. The descriptions on the index mirror the descriptions used by Lexin on files and in addition contain Lexin’s file numbers.

A review of the Emergency Records definition contained in the Document Protocol, consented to by your office, indicates that well files and facility files constitute Emergency Records. A general statement that the records contained in the indexes do not meet the definition of Emergency Records is not particularly helpful. Please be more specific about which files on the index do not meet the definition of Emergency Records.

Records listed on pages 33 to 35 of the index provided on April 25, 2017 reference the Mazeppa Gas Plant. While Lexin holds the license to this facility and is entitled to these records, we will be moving these records to the Reviewable Records list as the Orphan Well Association (the “OWA”) does not have care and custody of this facility and therefore does not require access to the records.

Lastly, we can advise that the OWA has not yet been provided with any of the records contained in the April 22 or April 24 index.

Reviewable Records

We strongly reject your statement that the Receiver has not complied with the Protocol.

With respect to the allegation that the indexes are not being provided on a continuous basis in accordance with paragraph four of the Document Protocol, I can advise that the Receiver is using its best efforts to provide the indexes on a continuous basis. As the Receiver obtains the index from Calgary Archives, it must prepare, sort, review and in some cases revise the index. The Receiver will continue to use its best efforts to provide the indexes on a continuous basis as they are prepared and available for review.

I would also confirm our advice to you that if a reasonable request is made to extend the 48 hour deadline for reviewing records as set out in paragraph 7 of the Document Protocol, the Receiver would consider such request.

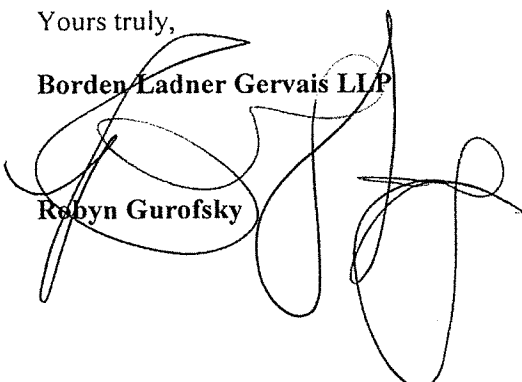

If you believe that a more detailed description is necessary, which we do not believe to be the case, the cost of cataloging and indexing these records will increase significantly. In addition, when preparing the Document Protocols, it was never intended that your office would review all of the files retrieved. There is a cost of \$6.60 per box retrieved at Calgary Archives. Your instructing client should bear the additional costs of this, not the stakeholders in the receivership estate. We therefore require your confirmation that your client will provide a retainer in the amount of \$30,000 in advance to be held by the Receiver to address these issues. Should the cost to conduct more in depth reviews of the documents exceed this amount, a further retainer would be required.

Lastly, I understand from a discussion with Ms. Roberts Jones that Groia & Company have not reviewed these lists with its client. The Receiver is of the view that neither the OWA nor the public of Alberta should be further prejudiced by your instructing client's apparent lack of urgency and attention to safety matters as a result of purported prejudice claims that prevent access to the Records.

Yours truly,

Borden Ladner Gervais LLP

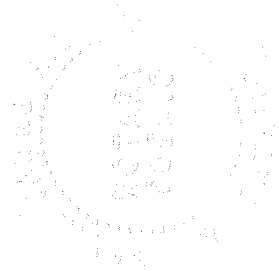

Robyn Gurofsky

Attention: Robyn Gurofsky

Dear Ms. Gurofsky:

**Re: In the matter of the Receivership of Lexin Resources Ltd. – Reviewable Records
Court of Queen's Bench, Action No. 1701-03460**

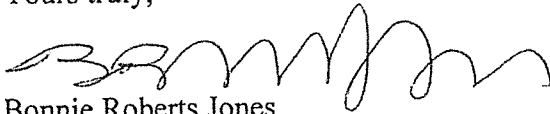

Thank you for your correspondence of yesterday afternoon.

Your suggestion that our "instructing client" should bear the cost of retrieving the documents for review is untenable with all due respect. Firstly, as we advised on Tuesday and again yesterday, it is our position that the reason that all of the boxes must be reviewed is that your index was not in compliance with the requirement in the Protocol. We maintain that position which is detailed in our April 25th correspondence. To the extent that all of the boxes must be retrieved for review, it is because the Receiver provided an inadequate index that does not allow us to determine which boxes may contain potentially privileged documents. Secondly, the Receiver, for reasons that are unknown, chose to put the Mazeppa documents into a storage facility where retrieval is necessary, restricted and expensive. The Receiver should bear the cost of their retrieval.

Your recollection of our discussion regarding our review of the indexes with our instructing party is inaccurate. Firstly, by the time we spoke on Tuesday morning, we had already heard from our client in relation to the list delivered on Saturday. What I advised you is that we had not heard from our client with respect to the list delivered Monday night. Your suggestion that we are not treating this review with appropriate urgency is not true and is not borne out in the correspondence between us. I do not know what you mean by the "purported prejudice claims that prevent access to the Records". Despite our concerns about lack of access, we had two lawyers in attendance to commence review starting this morning, which is the earliest that you were able to make the documents available to us.

While we maintain our position that your breach of the Protocol means that the "48 hour" deadlines are not in place (and we are not sure, in any event, that we agree on the interpretation of those deadlines in the Protocol), we appreciate your willingness to extend the "48 hour" deadline on reasonable request and as you know, we were ready, willing and able (and in fact did) commence review this morning with two lawyers in attendance who will, if necessary, work after hours and on weekends to complete that review.

Yours truly,

A handwritten signature in black ink, appearing to read 'Bonnie Roberts Jones', with a stylized, cursive script.

Subject: Lexin - Document Protocol (Emergency Records)
Attachments: image001.jpg; Lexin Emergency Records - April 27, 2017.pdf

In accordance with paragraphs 4, 5, 12 and 24-26 of the Protocol for the Review of Records by the Court-Appointed Receiver of Lexin Resources Ltd. and the Urgent Disclosure of Records of Lexin Resources Ltd. to the Orphan Well Association (the "**Protocol**"), please find attached a list of records which the Receiver has identified on their face as Lexin Emergency Records (as defined in the Protocol) from the last round of cataloguing.

Please note this is the second Emergency Records index issued on today's date.

Attention: Robyn Gurofsky

Dear Ms. Gurofsky:

**Re: In the matter of the Receivership of Lexin Resources Ltd. – Reviewable Records
Court of Queen's Bench, Action No. 1701-03460**

We are in receipt of your email correspondence of today's date attaching further indexes of Lexin Emergency Records and Reviewable Records pursuant to the Protocol for the Review of Records by the Court-Appointed Receiver of Lexin Resources Ltd. and the Urgent Disclosure of Records of Lexin Resources Ltd. to the Orphan Well Association (the "Protocol").

We have reviewed today's Emergency Records indexes and, without prejudice to our position expressed in our letter of April 25, 2017 that the description of the records provided is insufficient for a meaningful review and identification of the documents as Emergency Records, we will not be reviewing the records listed in the Lexin Emergency Records indexes dated April 27, 2017 and you are free to release these files to the Orphan Well Association.

With respect to the Reviewable Paper Records indexes, we will write to you in separate correspondence with respect some of the issues we have with the records listed on those indexes.

Having said that, while Mr. Groia and Mr. Sischy are at Calgary Archives today and tomorrow, please arrange for them to have access to the following boxes from the April 27 Reviewable Paper Records list:

1st Reviewable Paper Records Index

Attention: Robyn Gurofsky

Dear Ms. Gurofsky:

**Re: In the matter of the Receivership of Lexin Resources Ltd. – Lexin Records
Court of Queen's Bench, Action No. 1701-03460**

We write with respect to the Lexin Emergency Records and Reviewable Paper Records indexes we received from you on April 13, 22, 24 and 27, 2017.

As we advised in our April 25th letter, and confirmed through the review of the records today, the records in the Receiver's possession clearly include records that are not Lexin's records and belong to LR Processing Partnership and/or LR Processing Ltd.

In your letter of April 26, 2017, you advised that the Orphan Well Association does not have care and custody of the Mazeppa Gas Processing Plant, does not require access to these records, and that you would be moving the records marked on the Emergency Records index with reference to Mazeppa "facility files" to the Reviewable Records index.

It is our position that the Receiver is not entitled to take possession of any of the records that are not properly Lexin's records. These records include the records in relation to Mazeppa, MPP, LR Processing Partnership and LR Processing Ltd. These records should be removed from the Receiver's possession and custody immediately.

Please confirm that you will be taking steps to address this issue.

Yours truly,

Bonnie Roberts Jones

Attention: Robyn Gurofsky

Dear Ms. Gurofsky:

**Re: In the matter of the Receivership of Lexin Resources Ltd. – Reviewable Records
Court of Queen's Bench, Action No. 1701-03460**

As you are aware, Mr. Groia and Mr. Sischy have been in attendance at Calgary Archives all day today to review the documents contained in your index delivered on April 22, 2017.

Included on that list at [pp. 21-33 (numbers 345-CCEX 0299407)] is a series of files that do not belong to Lexin. We take the position that they are not Lexin Records for the purposes of the Protocol and are not properly in the possession of the Receiver. Mr. Groia and Mr. Sischy did not, for this reason, review those documents.

Also included on the list at [pp. 10-12 (numbers 223-1688)] is a series of geology documents. We believe, that these too are documents that do not belong to Lexin and therefore are not properly in the possession of the Receiver. Similarly, and out of an abundance of caution, we did not review these documents.

With respect to both sets of documents referenced above, we take the position that the Receiver is not entitled to possession of the documents listed unless and until it can be determined that they are, in fact, Lexin Records.

Yours truly,

Bonnie Roberts Jones

TAB “DD”

This is Exhibit "DD" referred to in the
affidavit of Tatsiana Okun
sworn before me, this 2nd
day of May, 2017

.....
A COMMISSIONER FOR TAKING AFFIDAVITS

Tatsiana Okun

From: Gurofsky, Robyn <RGurofsky@blg.com>
Sent: April-28-17 10:09 PM
To: Joe Groia; Bonnie Roberts Jones; dsischy@groiaco.com; Tatsiana Okun
Cc: Cameron, Jessica; Kim, Stella
Subject: Lexin - Document Protocol (Emergency Records)
Attachments: Lexin Emergency Records - April 28 2017 (1).pdf

April 27, 2017 3:29 PM

In accordance with paragraphs 4, 5, 12 and 24-26 of the Protocol for the Review of Records by the Court-Appointed Receiver of Lexin Resources Ltd. and the Urgent Disclosure of Records of Lexin Resources Ltd. to the Orphan Well Association (the "**Protocol**"), please find attached a list of records which the Receiver has identified on their face as Lexin Emergency Records (as defined in the Protocol) from the last round of cataloguing.

Attention: Robyn Gurofsky

Dear Ms. Gurofsky:

**Re: In the matter of the Receivership of Lexin Resources Ltd. (“Lexin”)
– Emergency Records
Court of Queen’s Bench, Action No. 1701-03460**

We are in receipt of your further Emergency Records Index sent to us on Friday, April 28, 2017, which we received at 10:09pm EST. This Index was provided, purportedly, in compliance with the Protocol for the Review of Records by the Court-Appointed Receiver of Lexin Resources Ltd. and the Urgent Disclosure of Records of Lexin Resources Ltd. to the Orphan Well Association (the “OWA”) (the “Protocol”).

Upon our review of this Emergency Records Index, we find that as with your earlier indexes, the description of the records listed is very general and often insufficient for a meaningful review and determination of whether these records have been properly identified as “Emergency Records” as defined in the Protocol.

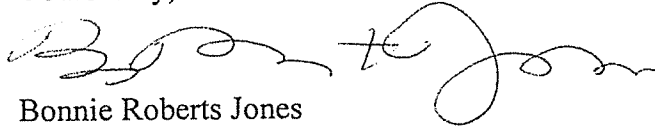

Given the above and based on the general description of the records you have provided, we believe that the records listed on pages 8-9 of the April 28 Index (Boxes # LCON002647, LCON002648, LCON002649 and LCON002634) do not fall within the definition of the “Emergency Records” set out in Section 24 of the Protocol. As such these records have been improperly placed on the Emergency Records Index and cannot be released to the OWA.

We require that these records be removed from the Emergency Records Index and classified as Reviewable Paper Records, allowing Lexin an opportunity to review these records, if necessary, for privilege pursuant to the Protocol.

Please confirm that these records have not been released and will not be released to the OWA and that appropriate steps will be taken to remove these records from the Emergency Records Index immediately.

Yours truly,

Attention: Robyn Gurofsky

Dear Ms. Gurofsky:

**Re: In the matter of the Receivership of Lexin Resources Ltd. (“Lexin”)
– Reviewable Paper Records
Court of Queen’s Bench, Action No. 1701-03460**

We write with respect to the Reviewable Paper Records Index which we received from you by email on Friday, April 28, 2017 at 10:11pm EST, purportedly, in compliance with the Protocol for the Review of Records by the Court-Appointed Receiver of Lexin Resources Ltd. and the Urgent Disclosure of Records of Lexin Resources Ltd. to the Orphan Well Association (the “Protocol”).

We have reviewed the Index and note that the Receiver continues to provide very limited description of the records, which significantly undermines our ability to narrow down the number of records for the privilege review. We continue to maintain our position expressed in our correspondence starting on April 25, 2017 that the indexes provided, including the April 28 Index, do not comply with the Protocol which expressly requires a description of the records that is sufficient for identifying the contents of a box.

Without prejudice to our position, we will review the following boxes from the April 28 Reviewable Records Index:

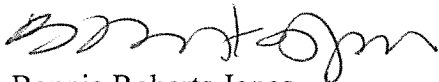

Box # JV001313
JV001314
JV001315
JV001316
JV003167
JV003168

JV003169
JV003173
JV003174
JV003182
JV003181
JV001318
JV003166
JV003171
JV003176
JV003177
JV003178
JV003179
JV003180
MIN002297
MIN002298
MIN002299
MIN003336
MIN002295
MIN002296
MIN002300
MIN003341
PA001392
PSA001227
ROAD002430

At the same time, we will also be reviewing the 4 boxes of records that were improperly classified as Emergency Records, as advised in our letter on April 30, 2017. Please confirm that these records will be available for our review at the same time and location.

We are available to attend in Calgary to commence our review tomorrow, Wednesday, May 3, 2017, but it would be much more convenient, given the court proceedings on Thursday, if we could conduct the review on Friday. Please confirm the location at which the review will be conducted, who will be attending there, and whether you would agree to allow us to conduct the review on Friday of this week.

Yours truly,

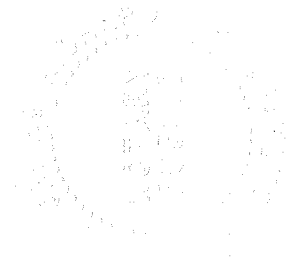

Bonnie Roberts Jones

Attention: Robyn Gurofsky

Dear Ms. Gurofsky:

**RE: In the matter of the Receivership of Lexin Resources Ltd.
Court of Queen's Bench Action No. 1701-03460**

We acknowledge receipt of your letter of March 21, 2017, wherein you invited the directors of Lexin Resources Ltd. ("Lexin") to meet with the Receiver. Firstly, we should correct a statement in the first paragraph of your letter. You do not name the directors, but I can advise that to the best of my knowledge, there are currently two directors – Michael Smith and Jasmina Cezek. We act for Mr. Smith. We do not act for Ms. Cezek. Below is a more substantive response to your letter.

By way of background, Lexin has tried for many months to cooperate with the Alberta Energy Regulator (the "AER") in dealing with health and safety issues at its licensed sites and to negotiate a compromise that would allow Lexin to continue as a going concern. At no time during its dealings with the AER did the regulator ever demonstrate a willingness to listen, to cooperate or to compromise, nor did it demonstrate any interest in carrying out its statutory mandate of facilitating Lexin's development of Alberta's natural resources. Understandably, Lexin is extremely disappointed in the AER for these reasons.

As such, Lexin is quite encouraged that the Receiver is willing to open a line of dialogue. However, before such dialogue can be productive, it is Lexin's view that the Receiver has a number of urgent matters to consider, including:

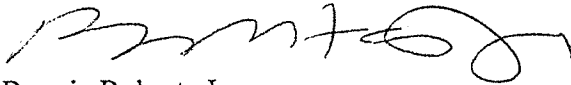

- the immediate health and safety concerns at the various licensed facilities and sites (in this regard, please see my attached letter of March 6, 2017);
- whether and which sites the Receiver should renounce;

- how to deal with the complex documentary issues that exist as a result of the AER's investigation;
- how the process undertaken by the Receiver under Justice Jeffrey's order can be managed in the face of the individual Charter rights that are at stake as a result of the AER's investigation;
- whether the Receiver wishes to consider a consent to the request for a stay made by Lexin in its leave to appeal application, currently scheduled to be heard on April 5, 2017;
- how the Receiver intends to address the myriad outstanding litigation matters involving Lexin; and
- other matters which require immediate attention.

Lexin invites the Receiver to take some time to consider these matters, to get up to speed and to conduct its due diligence. Once it has done so, we are advised that Mr. Smith would be pleased to discuss the possibility of a meeting.

Yours very truly,

Dear Ms. Nicholson and Ms. Payne:

Re: Health, Safety and Environmental Concerns at Lexin Sites

As you are aware, Lexin Resources Ltd. ("Lexin") has significant concerns regarding health, safety and environmental issues at the sites and facilities for which it is the Licensee (the "Lexin Sites"). We are writing you to provide you with additional details about issues that likely require immediate attention.

i) Lexin currently has two employees who are able to inspect the Lexin Sites. Lexin has advised us that it has no source of income, and its ability to continue to pay these employees is in doubt. As of today, they are doing their best to monitor the critical sour wells. They do their best to get to each of the critical sour well sites every one or two days. The remainder of the Lexin Sites are not being inspected at all by Lexin.

Lexin advises us that there are vandals operating in the province who are targeting well sites, stealing copper wire and equipment. Lexin has no way of knowing if these vandals have vandalized any of the Lexin Sites, but is concerned that they are doing so.

ii) The 1-800 emergency number which operates to allow people to report health, safety and environmental emergencies that may arise at the Lexin Sites was operational as of last Friday, March 3. We do not know if it is operational now. Telus has advised Lexin that it will be

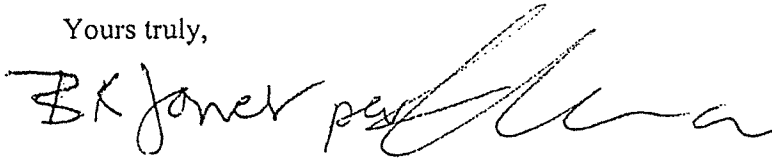

disconnecting the line shortly, at which time there will be no way for anyone to report emergency situations which may arise at any time. In any event, Lexin does not have the resources to hand these calls.

Mazeppa Facility

In addition to the spilled catalyst, of which you are aware, we are advised that the pond levels at the Mazeppa facility are dangerously high and that there is a real danger of an overflow and environmental damage as a result thereof.

Lexin is not able to deal with any of these significant health, safety and environmental concerns or to otherwise maintain care or custody of any of its sites. Should you wish to discuss these matters further, please do not hesitate to contact me.

Yours truly,

A handwritten signature in black ink, appearing to read "BK Jones" followed by a stylized flourish.
